UX/UI Design • Figma • Wireframing & Prototyping • Cross-Functional Collaboration • Communication • Adobe Creative Suite • Photography • Print & Digital Design • HTML • CSS • Visual Studio Code

PROJECTS & EXPERIENCE

UX Client Web Redesign

Fall 2025 – Summer 2026

Siena Beverage Institute, Loudonville NY

- Collaborated with clients, including Meadowdale Winery and Serious Brewing Co., to define project goals, present Figma website mockups, and incorporate feedback through ongoing meetings.
- Delivered “knowledge transfer” handoff packages with instructions for clients to maintain and edit their websites.
- Strengthened communication and design skills through hands-on experience in Figma, web design, WCAG accessibility guidelines, and digital asset creation.

UX Design Team Project: SaintsSelect

Summer 2025

Siena University & CURCA Summer Scholars, Loudonville, NY

- Collaborated with a classmate to develop a roommate-matching app concept for Siena students, evolving a classroom project into a full proposal presented to Student Life.
- Conducted student research to identify pain points and inform design decisions, then designed and iterated the mobile prototype in Figma based on user feedback to enhance usability and accessibility.
- Presented the project to Student Life, earning approval for development with Siena’s software engineering team.

Creative Content Student Producer Assistant

September 2025 – December 2025

New York State Justice Center for The Protection of People with Special Needs

- Designed print and digital materials, including brochures and digital assets, using Adobe Creative Suite (Photoshop and Illustrator) while adhering to NYS brand guidelines.
- Maintained visual brand consistency and organized digital asset libraries for agency communications and advertising.
- Applied design skills to strengthen digital visual communication and engage the agency’s audience.

PROFESSIONAL DEVELOPMENT

Grace Hopper Celebration Scholar

November 2025, October 2026

- Awarded full scholarship twice by Boeing and the Siena Computer Science Department to attend GHC, selected based on professional engagement and academic merit.
